REQUEST FOR CORRECTED OFFICIAL FILING RECEIPT

Commissioner of Patents
Washington, D.C. 20231

Sir:

It is respectfully requested that a Corrected Official Filing Receipt be issued for the above-identified application.

The Foreign Applications claiming foreign priority on the Official Filing Receipt has the wrong filing date. The correct filing date should read:

- **REPUBLIC OF KOREA 2001-22673 07/26/2001**

Enclosed is a copy of the Official Filing Receipt marked in red to show correction that is needed.

Also enclosed is a copy of the first page of the specification claiming foreign priority and a copy of the first page of the Korean priority document dated 7/26/2001.

If the Commissioner should determine that any additional fee(s) are required, the U.S. Patent and Trademark Office is hereby authorized to charge any deficiency or credit any overpayment to the Miles & Stockbridge Deposit Account No. 50-1165.

Respectfully submitted,

JTC:sys

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

CLAIMING FOREIGN PRIORITY

The applicant claims and requests a foreign priority, through the Paris Convention for the Protection of Industrial Property, based on a patent application filed in the Republic of Korea (South Korea) with the filing date of 10 July 26, 2001, with the application number 2001-22673, by the applicant. (See the Attached Declaration)

BACKGROUND

The present invention relates to sunglasses. More 15 particularly the present invention pertains to sunglasses that are worn by riders of motorcycles, bicycles, and other vehicles who experience strong winds blowing upon their face.

Some of the presently available glasses have various 20 types of added protection around the perimeter edge of the glasses that reduce the wind blowing upon the rider's face.

Unfortunately this extra protection on the glasses reduces the amount of air circulation on the back interior surface of the glasses near the face. The reduced air circulation 25 allows moisture to build up, which causes condensation and fogging on the back interior surface of the glasses. The
